III. DESCRIPTION OF FINDINGS & CONCLUSIONS

This renewal inspection involved a review of all applicable child care center administrative rules and statutes. Verification of compliance included direct observations of the physical environment and the program, discussions with staff, and a review of the center’s records, including staff records and children’s records. Staff records include background checks and training information. Children’s records include child information cards, physical examination dates, and immunizations.

On 4/27/2023, during an onsite inspection, I observed two classrooms. Both classrooms were finishing up breakfast, going to the bathroom and participating in large group and message time. All staff members interacted appropriately with all children present.

Technical assistance was provided regarding making sure that all trainings certificates list all trainings topics covered in the training session to ensure that all required trainings topics are completed.

The facility is in compliance with all applicable rules and statutes.

IV. RECOMMENDATION

I recommend issuance of a regular license to this child care center.
