III. DESCRIPTION OF FINDINGS & CONCLUSIONS

This renewal inspection involved a review of all applicable child care center administrative rules and statutes. Verification of compliance included direct observations of the physical environment and the program, discussions with staff, and a review of the center’s records, including staff records and children’s records. Staff records include background checks and training information. Children’s records include child information cards, physical examination dates, and immunizations.

On 3/23/2023, during an onsite inspection, I was able to observe both classrooms. Upon arrival children were getting prepared to go outside to play on the playground. Once they arrived back at the classrooms, they transitioned to planning them where they planned what they wanted to work on that day. They then moved to work time where children were able to explore the classroom freely. All staff interacted appropriately with all children present.

The facility is in compliance with all applicable rules and statutes.

IV. RECOMMENDATION

I recommend issuance of a regular license to this child care center.
