Findings of the Inspection

A copy of this renewal inspection report and any associated corrective action plans is available on the Child Care Licensing Bureau [website](#) under [Statewide Search for Licensed Child Care Centers and Homes](#). A description of when renewal inspection reports are completed can be found under [Overview of Licensing Reports](#).

The renewal inspection involved a review of all applicable child care center [administrative rules](#) and [statutes](#). Verification of compliance included direct observations of the physical environment and the program, discussions with staff, and a review of the center's records, including staff records and children's records. Staff records include background checks and training information. Children's records include child information cards, physical examination dates, and immunizations.

During the renewal inspection, licensing consultant Paris Howard found 9 violations. The violations are listed and explained below. Due to the violations, the licensee/licensee designee must send the bureau a [corrective action plan](#) by 7/21/2024. The corrective action plan may be submitted in the [Child Care Hub Information Record Portal \(CCHIRP\)](#). The corrective action plan must include the following:

- How compliance with each rule will be achieved.
- Who is directly responsible for implementing the corrective action for each violation.
- Specific time frames for each violation as to when the correction will be completed or implemented.
- How continuing compliance will be maintained once compliance is achieved.
- The signature of the responsible party and a date.

Due to the health and safety professional development training violation(s), all of the facility’s child care staff members must complete the required training by 7/11/2024. This must be included in the facility’s corrective action plan.
