III. DESCRIPTION OF FINDINGS & CONCLUSIONS

This renewal inspection involved a review of all applicable child care center administrative rules and statutes. Verification of compliance included direct observations of the physical environment and the program, discussions with staff, and a review of the center’s records, including staff records and children’s records. Staff records include background checks and training information. Children’s records include child information cards, physical examination dates, and immunizations.

During the inspection, the center was found to be in compliance with all applicable rules and statutes except for the following violations:

R 400.8143 Children's records.

(1) At the time of a child's initial attendance, a center shall obtain a child information card, using a form provided by the department or a comparable substitute, that is completed and signed by the child's parent. The center shall keep it on file and accessible in the center.

Six of the ten child information cards reviewed were incomplete and completed on obsolete forms. They were missing the following information: employer name, work phone, physician's name and phone number.

R 400.8143 Children's records.

(6) Within 30 days of a child's initial attendance, a center shall obtain, keep on file, and make accessible in the center a record of a physical evaluation of the child that notes any restrictions and is signed by a physician or the physician's designee. An electronic record from a physician's office will be accepted. The physical evaluation must be performed within 1 of the following time limits:

(c) For preschoolers, within the preceding 12 months.

Three of the ten children records reviewed did not have a physical on file at the center.

R 400.8146 Information provided to parents.

(1) A center shall provide a written information packet to each parent enrolling a child that includes at least all of the following:

(l) Notice of the availability of the center's licensing notebook. The notice must include all of the following:

(i) The licensing notebook contains all the licensing inspection and special investigation reports and related corrective action plans for the last 5 years.

(ii) The licensing notebook is available to parents during regular business hours.

(iii) Licensing inspection reports, special investigation reports, and corrective action plans from at least the past 3 years are available on the department's child care licensing website at www.michigan.gov/michildcare. The website address must be in bold print.

(m) The website where parents can access these rules is www.michigan.gov/michildcare.

Three of the 10 children records reviewed did not have a signed parental statement regarding the center's licensing notebook.

R 400.8330 Food services and nutrition generally.

(10) Menus must be planned in advance, dated, and posted in a place visible to parents. Food substitutions must be noted on the menus the day the substitution occurs.

During the onsite inspection, a current menu was not posted in a place visible to the parents. The menu posted was from May 2022.

On 07/20/2022, I completed an on-site inspection at Kids World. I observed the caregivers interact appropriately with the children. The children participated in educational activities, played outside and ate lunch during the inspection. The center is equipped with a variety of developmentally appropriate equipment

IV. RECOMMENDATION

Upon receipt of an acceptable corrective action plan, it is recommended that the license be renewed without change in status.
