II. Purpose of Addendum

On 09/01/2023, I received a modification request from licensee designee, Shekelia Stokes to increase the capacity from 17 to 20 and change her age group from birth to 5 years old to 2 ½ to 13 years old. Ms. Stokes will no longer provide child care to infants.

III. Methodology

09/01/2023 – Modification request received 09/01/2023

09/01/2023 – Inspection completed onsite 08/29/2023

IV. Description of Findings and Conclusions

The terms of this license have been modified on 09/07/2023, 08/05/2022, 03/07/2022, 06/05/2019.

An environmental health inspection, fire safety inspection, and lead hazard risk assessment were not needed for the modification.

Children'z R US is comprised of one large room that is divided into two well-defined spaces to create two preschool/school-aged classrooms. The following spaces are approved as child use space:

- Preschool- School-age 1 classroom measured 17ft. x 18ft. providing a total of 306 square feet. Based on 35 square feet per child, this allows for a total capacity of 9 preschoolers – school-age, ages 2 ½ - 13 years.
- Preschool – School-age 2 classroom measured 23ft. x 16ft. providing a total of 368 square feet. Based on 35 sq. feet per child, this allows for a total room capacity of 11 preschoolers – school-age, ages 2 ½ - 13 years.

The total space is sufficient for a total license capacity of 20 children age preschool through 13 years.

NOTE: Technical Assistance was provided to licensee designee/program director, Shekelia Stokes regarding **R 400.8185 (7)**. If there are children of mixed ages in the same room or well-defined space, then the ratio and group size is determined by the age of the youngest child, unless each group of children is clearly separated and the appropriate child care staff member-to-child ratios and group sizes, if applicable, for each age group are maintained.

There is a total of 3 handwashing sinks, and 2 toilets available for child use. There is 1 food prep sink in the kitchen. The classrooms are furnished with a variety of developmentally appropriate equipment.

Terms: The total capacity of the center is 20 children age, 2 ½ – 13 years.

V. Recommendation

I approve the age range of the center be changed from birth to 5 years to 2 ½ to 13 years old and the capacity be increased from 17 children to 20 preschoolers and school-age children.
