IV. Description of Findings and Conclusions

The terms of the original license have been modified on September 8, 2022.

The following room was previously approved for child care:

- The PS 101 room, is a preschool room that measures 27.5 ft. x 24 ft., providing approximately 660 square feet and can accommodate 19 children (2 1/2 to 3 years) based on 35 square feet per child. The center is requesting a capacity of 19 children.
- The PS 100 room, is a preschool room that measures 27 ft. x 31 ft., providing approximately 837 square feet and can accommodate 23 children (4 to 5 years) based on 35 square feet per child. The center is requesting a capacity of 23 children.
- The gym measures 102.6 ft. x 81 ft., providing approximately 8310 square feet and can accommodate 237 children (2 ½ to 5 years) based on 35 square feet per child. The gym is approved as additional child use space but is not used to determine the center's total capacity.

The following room is added and approved for child care:

- Room 102/103 is two rooms joined by an open wall in the middle, considered one large room. There are two restrooms in room 102/103. Each restroom has one hand washing sink and one toilet. Room 102/103, is a preschool room that measures 22 ft. x 42.3 ft., providing approximately

930.6 square feet. The room accommodates a capacity of 18 children ages 2 to 2 ½ or 26 children ages 2 ½ to 5 years based on 35 square feet per child. The center is requesting a capacity of 26 children.

The following components will change:

- The PS 101 room measures 27.5 ft. x 24 ft., providing approximately 660 square feet. The room accommodates a capacity of 13 children ages 2 to 2 ½ or 19 children ages 2 ½ to 5 years based on 35 square feet per child. The center is requesting a capacity of 13 children.
- The PS 100 room measures 27 ft. x 31 ft., providing approximately 837 square feet. The room accommodates a capacity of 16 children ages 2 to 2 ½ or 23 children ages 2 ½ to 5 years based on 35 square feet per child. The center is requesting a capacity of 23 children.
- The capacity to the child care center will change from 42 to 62 children.
- The age range will change from 2 ½ to 5 years to 2 to 5 years.

The total approved capacity is 62 children at any one time, ages 2 to 5 years. There are a total of four toilets, and eight handwashing sinks. This supports the center's capacity.

The rooms are furnished with a variety of age-appropriate equipment. There is an adequate amount of equipment to support the capacity increase. An equipment list is on file.

A new fire safety inspection was completed on 08/16/2022. Room 102/103 was approved to be added to the license. An environmental health inspection was completed on 08/30/2022. The inspections are on file with the department.

Terms:

The center is approved for a total of 62 children, ages 2 to 5 years. The center is not approved for meal services. The parents provide the children's lunch and two snacks each day.

V. Recommendation

I recommend the addition of room 102/103 as approved child use space, the change in age range and the capacity increase from 42 to 62 children, ages 2 to 5 years.
