Capacity:	45
Program Type:	CHILD CARE CENTER

II. Purpose of Addendum

On May 19, 2023, I received a modification request from the licensee designee, Shekelia Stokes, requesting to add extra space as child use space to increase the capacity of her facility.

III. Methodology

Modification Request Received – 05/19/2023.

Onsite inspection - 07/10/2023

IV. Description of Findings and Conclusions

The terms of the original license were modified on 12/29/2023 and 07/11/2023.

The following rooms are approved as child use space:

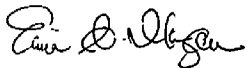

- Infant/toddler classroom is 36ft. x 10ft. providing a total of 360 sq. ft. Based on 50 sq. ft. per child, this accommodates 10 infants and toddlers. This approval is based on the number of cribs provided by the center.
- The South preschool classroom was measured in two parts. The first part is 13ft. x 26 ft., and the second part is 13ft. x 9ft., together, this provides a total of 455 sq. ft. Based on 35 sq. ft. per child, this accommodates 13 children 2 1/2 – 13 years of age.
- The Southeast preschool is 36 ft. x 15 ft., providing a total of 558 sq. ft. Based on 35 sq. ft. per child, this accommodates a total of 16 children 2 ½ years of age.
 - The new approved space is the former space where the children hung their coats. This new approved space will be an art and activities room. It had to be measured in two parts The first part measures 13 ft. x 10 ft. and the second part measures 11 ft x 7 ft., providing a total of 206 square feet. This space can accommodate 6 children, ages 2 ½ -13 years of age.

There are three toilets and four sinks in this facility. There are enough toilets and sinks to support the center's capacity.

The total capacity of the center is 45 children, ages 6 weeks – 13 years of age. The center provides transportation.

V. Recommendation

I recommend the space be added to the license to increase the capacity to 45 children ages 2 ½ - 13 years.
