III. DESCRIPTION OF FINDINGS & CONCLUSIONS

This renewal inspection involved a review of all applicable child care center administrative rules and statutes. Verification of compliance included direct observations of the physical environment and the program, discussions with staff, and a review of the center's records, including staff records and children's records. Staff records include background checks and training information. Children's records include child information cards, physical examination dates, and immunizations.

During the inspection, the center was found to be in compliance with all applicable rules and statutes except for the following violations:

B. Beitler did not complete health and safety refreshers for 2021 and 2022. M. Khan did not complete refresher courses for 2020, 2021 and 2022.

During the onsite inspection, I observed 10 of the 30 reviewed child emergency cards were not thoroughly filled out i.e.,

admission date, employer name or contact number was left blank.

During the onsite inspection, I observed the facility to be clean and well organized. All classrooms were inspected and found to be in ratio with staff providing appropriate care and supervision.
