Dear Ms. Bazzi:

This letter is to advise you that the 03/20/2023 corrective action plan you submitted, regarding each rule violation cited in the recently completed Renewal Licensing Study Report, is approved.

You can find a copy of this corrective action approval letter and the associated report on our [website](#) under [Statewide Search for Licensed Child Care Centers and Homes](#). A description of each type of report and corrective action plans can be found under [Overview of Licensing Reports](#).

Violation cited	Noncompliance observed	Plan to correct	Date to be completed
R 400.8125 Staff; volunteer; requirements.	During the onsite inspection, I observed that the center did not provide appropriate care and supervision during naptime. There was one staff present upon arrival with eight children present; 5 children were sleeping, and 3 children were awake. Two of the three children who were awake were under 2 ½ so the children	Ms. Ahmad understands the requirements for leaving the center while children are napping. She will ensure 2 staff are at the center during naptime daily in order to ensure appropriate care and supervision at all times.	immediately

	were not properly supervised.		
R 400.8143 Children's records	The center has not been reporting immunization records to MDHHS. They did not have a certificate, (MCIR Report) showing completion of all required immunizations specified by Michigan Department of Health and Human Services on file at the center.	Every year Ms. Ahmad will report the immunizations to the Michigan Department Health and Human Services. I directed Ms. Ahmad to the MDHHS website for the information on how to report them.	04/01/2023
R 400.8182 Ratio and group size requirements.	During the onsite inspection, the center was out of ratio due to there being only one staff member present at naptime, when there were children under 2 ½ who were awake. There were eight children present and one staff member present. The correct ratio for children 2 ½ and under is 1:4, therefore, there should have been two staff present with eight children.	Ms. Ahmad understands the requirements for leaving the center while children are napping. She will ensure 2 staff are at the center during naptime daily in order not to leave the center out of ratio.	immediately

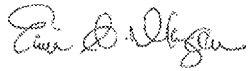

It is expected that the corrective action plan will be implemented within the time frames as outlined in your plan.

A follow-up evaluation may be made to verify compliance. Should the corrections not be implemented in the specified time, it may be necessary to reevaluate the status of your license.
