<b>Program Type:</b>	CHILD CARE CENTER

## **II. Purpose of Addendum**

On 03/07/2022, Kandice Mack, Licensee requested a modification to the child care license. The licensee requested to increase the capacity from 20 children to 32 children.

## **III. Methodology**

03/07/2022- Modification request received.  
03/14/2022- Modify Terms.

## **IV. Description of Findings and Conclusions**

The original license has been modified on March 14, 2022.

The following classrooms are approved for use:

The Latchkey Classroom (Small Cafeteria) measures 32 ft. X 35 ft. providing a total of 1,120 square feet. This will accommodate the requested capacity of 20 school age children based on 35 square feet per child.

The center's modified capacity is 32.

There is an adequate amount of age and developmentally appropriate equipment onsite. All equipment inspected is safe, clean and in good repair. A detailed equipment list is on file with the department.

There are 9 toilets and 7 handwashing sinks. This is enough to support the center's requested capacity of 32 children.

There is a fenced in outdoor play area right outside the latchkey door. The licensee has outdoor play equipment that will be used during outdoor play. There are no water hazards.

A lead hazard risk assessment is not required. A playground safety inspection is not required.

The program will operate Monday – Friday from 6:30 a.m. – 8:00 a.m. and from 3:00 p.m. – 5:30 p.m.

**V. Recommendation**

I recommend the capacity increase to be changed to 32.
