III. DESCRIPTION OF FINDINGS & CONCLUSIONS

This renewal inspection involved a review of all applicable child care center administrative rules and statutes. Verification of compliance included direct observations of the physical environment and the program, discussions with staff, and a review of the center's records, including staff records and children's records. Staff records include background checks and training information. Children's records include child information cards, physical examination dates, and immunizations.

During the inspection, the center was found to be in compliance with all applicable rules and statutes except for the following violations:

R 400.8134 Hand washing.

(2) All staff and volunteers shall wash their hands at all of the following times:

(e) After each diapering.

During the onsite inspection on 5/3/2022, the child care staff member in the infant classroom #24 did not wash her hands after diapering an infant.

R 400.8134 Hand washing.

(3) Staff and volunteers shall ensure that children wash their hands at all of the following times:

(b) After toileting or diapering.

During the onsite inspection on 5/3/2022, the child care staff member in the infant classroom #24 did not wash an infant's hands after diapering.

R 400.8380 Maintenance of premises.

(5) There must be no flaking or deteriorating paint on interior and exterior surfaces or on equipment accessible to children.

During the onsite inspection on 5/3/2022, an area of the wall in the infant classroom #24, had chipped paint in area accessible to infants; cribs were pushed against the wall with the chipped paint.

During the onsite inspection I observed children either eating lunch, napping, or doing crafts. I observed positive child/caregiver interactions. The site is equipped with a variety of developmentally appropriate materials for children to use. I provided technical assistance on hand washing procedures and paint finishes. I provided consultation on refrigerator temperature, lighting during rest time, required staff records, and forms for allergy children.

A corrective action plan was requested and approved on 05/03/2022. It is expected that the corrective action plan be implemented within the specified time frames as outlined in the approved plan. A follow-up evaluation may be made to verify compliance. Should the corrections not be implemented in the specified time, it may be necessary to reevaluate the status of your license.

IV. RECOMMENDATION

I recommend the issuance of a regular license to this child care center
