III. DESCRIPTION OF FINDINGS & CONCLUSIONS

This renewal inspection involved a review of all applicable child care center administrative rules and statutes. Verification of compliance included direct observations of the physical environment and the program, discussions with staff, and a review of the center’s records, including staff records and children’s records. Staff records include background checks and training information. Children’s records include child information cards, physical examination dates, and immunizations.

The facility is in compliance with all applicable rules and statutes.

Consultation Provided: I reminded Ms Thomas that the new CCSM needed to complete all her Health and Safety training by November 2022 as she just started August 2022. I also informed her of the training opportunities provided on MiRegistry so she can get as close to her 16 hours of professional development as she can.

IV. RECOMMENDATION

I recommend issuance of an original license to this child care center.
