II. Purpose of Addendum

The Licensee Designee, Ms. Miranda Covington, submitted a modification request to add an additional classroom for children ages 4 to 5 years of age and to increase the capacity to 30, and to add a gross motor room as approved child use space.

III. Methodology

10/03/2022 Modification request received.

10/03/2022 On-site inspection completed.

IV. Description of Findings and Conclusions

The original license was issued on 01-20-2022.

The facility will consist of a Modular Classroom. The classroom measures 24' x 24' and is 576 sq. ft. The space could accommodate up to 16 children ages 4-5 years of age, based on 35 square feet per child. The room is being approved for 15 children, due to the number of sinks and toilets at the facility.

The terms of the original license are being modified to the following:

The Modular has an additional classroom that measures 24' x 24' and is 576 sq.ft. The space can accommodate up to 16 children ages 4-5 years of age based on 35 square feet per child. The room is being approved for 15 children, as there is one toilet and 1 sink inside the classroom.

There is a gross motor room that also measures 24' x 24' and is 576 sq ft. The space can accommodate up to 15 children. This room's capacity will not be included in the center's capacity.

V. Recommendation

I recommend the addition of an additional classroom with the capacity of 15 for children 4 years of age to 5 years old. The gross motor room is also being approved as child use space.
