III. DESCRIPTION OF FINDINGS & CONCLUSIONS

A. Description of Facility

Kids Purpose Learning Center is located in a one-story office building in the city of Westland. The center is located close to the intersection of N Wayne Road and Warren Road.

Approved space (room numbers, sizes, capacity and ages of children for which each room/well-defined space is approved, etc.):

The spaces approved for childcare are as follows:

The Green Room measures 34 ft. X 10 ft. totaling 340 sq. ft. This room can accommodate 7 infants and toddlers based on 50 sq. ft. per child.

The Blue Room measures 27 ft. X 37 ft. totaling 999 sq. ft. This room can accommodate 28 preschoolers through school-age children based on 35 sq. ft. per child.

The Yellow Room measures 15 ft. X 6 ft. totaling 90 sq. ft. This room can accommodate 3 preschoolers through school-age based on 35 sq. ft. per child.

The Lavender Room measure 29 ft. X 28 ft. totaling 812 sq. ft. This room can accommodate 16 infants and toddlers based on 50 sq. ft. per child.

At this time, there are only 6 infant cribs present at the center, therefore only 6 infants can be cared for at this time.

Additionally, the facility is only approved for a capacity of 45 based on the number of toilets available for childcare use.

The licensee is aware that proper group size must be met for all ages and classrooms.

Equipment:

An adequate supply of age-appropriate play and learning equipment was displayed at the time of the inspection.

Number of sinks and toilets:

There are 3 toilets, and 5 handwashing sinks available for child care use. This includes a sink in the infant room that is used for food prep only. This accommodates the capacity of 45.

Outdoor play area - location, fenced or not, water hazards:

The outdoor play area is located behind the building and has no visible water hazards. The area is fenced in. The children and staff will walk along the parking lot using the sidewalk to get inside the outdoor play area. Safety and supervision precautions were discussed with Mrs. Robinson.

Documentation if a lead hazard risk assessment was required and the results:

Not applicable as the building was built in 1988.

Documentation of playground safety:

Not applicable as there is no playground equipment present at this time. Mrs. Robinson is aware that proper inspection and certification must be obtained if playground equipment is installed.

B. Program Description

Ages of children served:

The center will accept children 6 weeks to 12 years of age.
