**III. DESCRIPTION OF FINDINGS & CONCLUSIONS**

This renewal inspection involved a review of all applicable child care center administrative rules and statutes. Verification of compliance included direct observations of the physical environment and the program, discussions with staff, and a review of the center’s records, including staff records and children’s records. Staff records include background checks and training information. Children’s records include child information cards, physical examination dates, and immunizations.

The facility is in compliance with all applicable rules and statutes.

During the onsite inspection the facility was clean, well-organized and within ratio. I observed childcare staff providing appropriate care and supervision to the children present.

Technical assistance/consultation provided on the posting of crisis management procedures and verification of meeting R. 400.8131 (3) and (4).

**IV. RECOMMENDATION**

I recommend issuance of a regular license to this childcare center.
