RE: License #: DC820413129  
**Nene's Little Angels Childcare Center**  
**17150 Inkster Road**  
**Redford, MI 48239**

Dear Ms. Farmer:

Attached is the Addendum to the Original Licensing Study Report for the above referenced facility.

Please review the enclosed documentation for accuracy and contact me with any questions. In the event that I am not available, and you need to speak to someone immediately, please contact the local office at (517) 284-9730.

Per MCL 722.113g, this report must be filed in your licensing notebook.

Sincerely,

A handwritten signature in cursive script, appearing to read "Erica A. Hogan".

<b>Facility Telephone #:</b>	(313) 543-3365
<b>Capacity:</b>	81
<b>Program Type:</b>	CHILD CARE CENTER

## **II. Purpose of Addendum**

On 07/19/2023, I received a modification request from licensee designee, Chenita Farmer, to remeasure GSRP classroom 5, post construction and change classroom 6 from latchkey to a full day classroom. This will increase her capacity from 79 to 81. On 08/18/2023, I received a modification request from licensee designee, Chenita Farmer to add transportation to her license.

## **III. Methodology**

07/25/2023 – Inspection completed onsite  
08/24/2023 - Inspection completed onsite  
08/18/2023 - Fire Safety Inspection-A rated  
08/12/2023 – Environmental Health Inspection

## **IV. Description of Findings and Conclusions**

The terms of the original license were modified on 08/07/2023, and 09/19/2023

During the onsite inspection, I remeasured classroom 5. Room 5 is designated for GSRP to serve 4-year-olds. This room measured 35ft. x 19ft., providing a total of 665 square feet. This accommodates up to 19 GSRP children, age 4. This room has 1 sink.

The approved child use space is:

Room 1 is designated for infants, ages birth to 12 months. This room had to be measured in two parts to consider the design of the room. It measured 25ft. x 11ft. + 15ft. x 12ft., providing a total of 455 square feet. This accommodates up to 8 infants, ages birth to 12 months. There are 2 sinks in this infant room.

Room 2 is designated for toddlers, ages 1-2 years old. This room had to be measured in two parts to consider the design of the room. It measured 30ft. x 17ft. + 17ft. x 10ft., providing a total of 680 square feet. This accommodates up to 14 toddlers, ages 1-2 years old. This room has an exit door, which leads to the front of the building. This exit is the right entrance door.

Room 3 is designated for preschoolers, ages 2-3 years old. This room measured 29ft. x 26ft., providing a total of 754 square feet. This accommodates up to 22 preschoolers, ages 2-3 years old. This room has an exit door that leads to the back of the facility. This room has a boy's and a girl's bathroom. The boy's bathroom has 1 sink and 1 toilet. The girl's bathroom has 1 sink and 1 toilet. This room has a nurse's station inside.

Room 4 is designated for GSRP to serve 4-year-olds. This room had to be measured in two parts to consider the design of the room. It measured 29ft. x 18ft.

+ 17ft. x 19ft., providing a total of 845 square feet. This accommodates the requested amount of 18 GSRP children, age 4. This room has 1 sink.

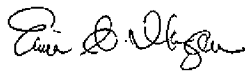

This facility has a nurse's station that is available for children's use. This room is inside classroom 3. It measures 12ft. x 7ft., providing a total of 84 square feet. Technical Assistance was provided to the licensee stating that only 2 infants or 2 toddlers/preschools can occupy this room at one time.

Transportation is added to this child care license:

**Terms:** The facility's GSRP classroom 5 was remeasured post construction, classroom 6 has changed from latchkey to a full day classroom, and transportation has been added to his child care license. The capacity of this child care facility is 81 children.

## V. Recommendation

I approve the current GSRP classroom 5 measurements, the change of the latchkey classroom to a full day classroom, the capacity changed from 79 to 81 and the addition transportation to this child care license.

 09/19/2023
