## III. DESCRIPTION OF FINDINGS & CONCLUSIONS

This renewal inspection involved a review of all applicable child care home administrative rules and statutes. Verification of compliance included direct observations of the physical environment and the program, discussions with staff, and a review of the home's records, including staff records and children's records. Staff records include background checks, medical clearance information, and training information. Children's records include child information cards and child in care statements/receipts.

Ms. Nye was providing care for four child care children and her own child during the inspection. A school age child was doing virtual instruction and the other children were engaged in free play. I found Ms. Nye to be very attentive to all the children and they were engaged and well behaved during the inspection. They all appeared to be very comfortable with Ms. Nye and the environment. I reviewed with Ms. Nye the requirements of an assistant caregiver as she is looking to hiring someone due to her having another baby.

The facility is in compliance with all applicable rules and statutes.

#### IV. RECOMMENDATION

I recommend issuance of an original license to this child care family home (capacity 1-6).
