III. DESCRIPTION OF FINDINGS & CONCLUSIONS

This renewal inspection involved a review of all applicable child care home administrative rules and statutes. Verification of compliance included direct observations of the physical environment and the program, discussions with staff,

and a review of the home's records, including staff records and children's records. Staff records include background checks, medical clearance information, and training information. Children's records include child information cards and child in care statements/receipts.

The facility is in compliance with all applicable rules and statutes.

Ms. Steffen was caring for six children during the inspection. The children just finished snack time prior to my arrival. They were very interested in my visit and were very talkative while I was there. They were celebrating Valentine's Day early with a pajama party. The children kept themselves busy with free play for some of my visit.

IV. RECOMMENDATION

I recommend no change in license status.
