III. DESCRIPTION OF FINDINGS & CONCLUSIONS

This renewal inspection involved a review of all applicable child care home administrative rules and statutes. Verification of compliance included direct observations of the physical environment and the program, discussions with staff, and a review of the home's records, including staff records and children's records. Staff records include background checks, medical clearance information, and training information. Children's records include child information cards and child in care statements/receipts.

During the inspection the children were just finishing up a birthday celebration snack. They were very social and showed me around the home. They were engaging in free play and they all got a long very well.

The facility is in compliance with all applicable rules and statutes.

IV. RECOMMENDATION

I recommend no change in license status.
