### III. DESCRIPTION OF FINDINGS & CONCLUSIONS

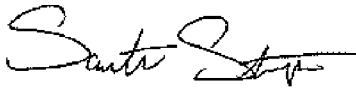

This renewal inspection involved a review of all applicable child care home administrative rules and statutes. Verification of compliance included direct observations of the physical environment and the program, discussions with staff, and a review of the home's records, including staff records and children's records. Staff records include background checks, medical clearance information, and training information. Children's records include child information cards and child in care statements/receipts.

The facility is in compliance with all applicable rules and statutes.

During my onsite inspection, I observed free play and snack time. Interactions between Ms. Oswill and child care children were positive. I provided a rule review regarding maintenance of premises, unobstructed exits and child records.

### IV. RECOMMENDATION

I recommend issuance of a regular child care license to this family home (capacity 1-6).
