## III. DESCRIPTION OF FINDINGS & CONCLUSIONS

This renewal inspection involved a review of all applicable child care home administrative rules and statutes. Verification of compliance included direct observations of the physical environment and the program, discussions with staff, and a review of the home's records, including staff records and children's records.

Staff records include background checks, medical clearance information, and training information. Children's records include child information cards and child in care statements/receipts.

The facility is in compliance with all applicable rules and statutes.

The program is currently not operating due to a lack of enrolled children. Ms. Desheles continues to make efforts to enroll children into the home. She has agreed to let the department know once she is operating.

During the inspection, I provided Ms. Desheles technical assistance and consultation on the following rules:

- The required 2023 Health and Safety Refresher training on the [www.miregistry.org](http://www.miregistry.org) website.
- Completing the required 10 clock hours for the calendar year of 2023 for her professional development training.
- Updating the Consumer product safety Recall list. Ms. Desheles was emailed a new one and printed it during the onsite inspection.

#### IV. RECOMMENDATION

I recommend issuance of a regular license to this child care family home (capacity 1-6).
