III. DESCRIPTION OF FINDINGS & CONCLUSIONS

This renewal inspection involved a review of all applicable child care home administrative rules and statutes. Verification of compliance included direct observations of the physical environment and the program, discussions with staff, and a review of the home's records, including staff records and children's records. Staff records include background checks, medical clearance information, and training information. Children's records include child information cards and child in care statements/receipts.

During the onsite inspection I observed safe sleep and free choice time. Interactions between Ms. Briggs and the children were positive and developmentally appropriate. The home was equipped with an adequate amount of age-appropriate play and learning equipment. Ms. Briggs provides activities through learned play that includes hands-on activities.

The facility is in compliance with all applicable rules and statutes.

Technical assistance was given on the written time out policy and wording of the emergency procedures.

IV. RECOMMENDATION

I recommend issuance of a regular license to this child care family home (capacity 1-6).
