II. Purpose of Addendum

At the renewal inspection on 07/11/2023, Ms. Pinckney submitted a modification request to add the upstairs bedroom on the west side as approved use space.

III. Methodology

07/11/2023 Modification request received

07/11/2023 Inspection completed onsite

IV. Description of Findings and Conclusions

The terms of the original license were modified on July 11, 2023.

Ms. Pinckney lives in a two-story home with a basement. The main level and basement of the home are approved for child care. The living room, kitchen, and family room on the main level and the main room in the basement are approved for use. The upstairs bedroom on the west side is now approved for use.

There is a front, side, and rear door to the home on the main level that can be used for emergency escape. In addition to the stairs leading to the main level of the home, there is a walk-out door leading to the backyard and a designated exit window with stairs leading to the window that can be used for emergency escape in the basement. Ms. Pinckney has been licensed to use her basement since 01/01/2006; therefore, the exit window does not have to meet current size requirements. In addition to the stairs leading to the main level of the home, there is an exit window in the bedroom on the west side upstairs.

V. Recommendation

I approve the addition of the bedroom on the west side upstairs as approved use space.
