Belding, MI 48809

Dear Ms. Reppert:

Attached is your renewal inspection report. You can find a copy of this renewal inspection report and any associated corrective action plans on our [website](#) under [Statewide Search for Licensed Child Care Centers and Homes](#). A description of when renewal inspection reports are completed can be found under [Overview of Licensing Reports](#).

During the renewal inspection on 7/17/2023, I found 3 violations. The violations are listed below and explained in the attached report:

R 400.1905(1) Training.
R 400.1918(5) Medication; administration; procedures.
R 400.1934(4) Heating; ventilation; lighting; radon.

You gave us an acceptable written corrective action plan. We will send you a regular license in the mail.

During calendar year 2022:	Total
Number of serious injuries that occurred in facility.	0
Number of deaths that occurred in the facility.	0
Number of substantiated cases of abuse and/or neglect of a child that occurred at the facility.	0

Please contact me with any questions. In the event that I am not available and you need to speak to someone immediately, please contact the local office at (616) 356-0183.

Per MCL 722.113g, this report and any related corrective action plans must be filed in your Licensing Notebook.

Sincerely,

III. DESCRIPTION OF FINDINGS & CONCLUSIONS

This renewal inspection involved a review of all applicable child care home administrative rules and statutes. Verification of compliance included direct

observations of the physical environment and the program, discussions with staff, and a review of the home's records, including staff records and children's records. Staff records include background checks, medical clearance information, and training information. Children's records include child information cards and child in care statements/receipts.

During the inspection, the child care home was found to be in compliance with all applicable rules and statutes except for the following violations:

R 400.1905	Training.
	(1) A licensee shall complete not less than 10 clock hours of training each calendar year related to child development, program planning, and administrative management for a child care business, not including CPR, first aid, and infectious disease, including immunizations, training.
The licensee did not have verification of the completion of 10 clock hours of annual professional development training for the 2021 & 2022 calendar years.	
R 400.1918	Medication; administration; procedures.
	(5) All medication must be kept out of the reach of children and returned to the child's parent when he or she determines it is no longer needed or when it has expired.
A tube of Orajel was found located in the foyer, and was accessible to child care children. REPEAT VIOLATION ESTABLISHED SIR dated 6/12/2023 CAP dated 5/31/2023	
R 400.1934	Heating; ventilation; lighting; radon.
	(4) A licensee shall test the child care home for the concentration of radon gas before the initial license is issued and every 4 years thereafter at the time of license renewal.
A radon test was not completed during the renewal process. A radon test has not been performed in the child care in the last 4 calendar years.	

A corrective action plan was requested and approved on 07/17/2023. It is expected that the corrective action plan be implemented within the specified time frames as outlined in the approved plan. A follow-up evaluation may be made to verify

compliance. Should the corrections not be implemented in the specified time, it may be necessary to reevaluate the status of your license.

IV. RECOMMENDATION

I recommend issuance of a regular license to this child care family home (capacity 1-6).
