### III. DESCRIPTION OF FINDINGS & CONCLUSIONS

This renewal inspection involved a review of all applicable child care home administrative rules and statutes. Verification of compliance included direct observations of the physical environment and the program, discussions with staff, and a review of the home's records, including staff records and children's records. Staff records include background checks, medical clearance information, and training information. Children's records include child information cards and child in care statements/receipts.

The facility is in compliance with all applicable rules and statutes. During my onsite inspection I observed free play and lunch time. Interactions between Ms. Asbury and child care children were positive. A rule review was provided in regards to animal dishes and locations during meal times, background checks for adult household members and labeling of exits for egress windows.

### IV. RECOMMENDATION

I recommend issuance of a regular license to this child care family home (capacity 1-6).
