III. DESCRIPTION OF FINDINGS & CONCLUSIONS

This renewal inspection involved a review of all applicable child care home administrative rules and statutes. Verification of compliance included direct observations of the physical environment and the program, discussions with staff,

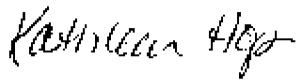

and a review of the home's records, including staff records and children's records. Staff records include background checks, medical clearance information, and training information. Children's records include child information cards and child in care statements/receipts.

The facility is in compliance with all applicable rules and statutes.

Technical assistance was provided regarding the maintenance of the driveway. Due to shifting of the ground, the driveway has an uneven surface and poses a potential tripping hazard as well as provides an uneven surface for the children to use wheeled toys and equipment on. Mrs. Ervin plans to address this by redoing the pavement of the driveway.

IV. RECOMMENDATION

I recommend issuance of a regular license to this child care family home (capacity 1-6).
