IV. Description of Findings and Conclusions

The terms of this license have been modified on July 15, 2022.

This child care home is a two-story wood framed structure with a finished basement in a residential area of Grand Rapids. The home is located near the intersections of Hall Street SE and Division Ave SE.

The main and basement levels of the home are approved as child use space.

- On the main level, the living room and dining room are approved. There is a bathroom for children to access on this level of the home. There are two remotely located exits on this level of the home; the front door and a side door near the rear of the home.
- In the basement level, the two rooms are approved. There is a bathroom for children to access on this level of the home. There are two remotely located exits in this level of the home; a stairwell to the main level of the home and a stairwell leading to a service door that leads to the outside of the home.

The following levels or rooms are not approved as child use space; the upper level of the home, the kitchen on the main level, and storage rooms in the basement level.

There is an adequate amount of age-appropriate equipment for the children to access.

The outdoor play area is located in the front yard of the home. The area is completely fenced in. There is no installed equipment at this time. There are not water hazards on or near the property. Ms. Tshiasuma provides direct supervision of the children during all outdoor activities.

Ms. Tshiasuma will provide care for children aged birth to 11 years of age.

The child care home will operate Monday through Friday from 6:00am to 11:59pm and Saturdays from 8:00am to 6:00pm.

V. Recommendation

I recommend approval of the basement level of the home as child use space.
