This renewal inspection involved a review of all applicable child care home administrative rules and statutes. Verification of compliance included direct observations of the physical environment and the program, discussions with staff, and a review of the home's records, including staff records and children's records. Staff records include background checks, medical clearance information, and training information. Children's records include child information cards and child in care statements/receipts.

At the time of my onsite inspection, I observed positive interactions between Mrs. Dietrich and child care children. I observed lunch service, free play, and infant safe sleep.

The facility is in compliance with all applicable rules and statutes.

#### IV. RECOMMENDATION
