III. DESCRIPTION OF FINDINGS & CONCLUSIONS

This renewal inspection involved a review of all applicable child care home administrative rules and statutes. Verification of compliance included direct observations of the physical environment and the program, discussions with staff, and a review of the home's records, including staff records and children's records.

Staff records include background checks, medical clearance information, and training information. Children's records include child information cards and child in care statements/receipts.

During the inspection, the child care home was found to be in compliance with all applicable rules and statutes except for the following violations:

R 400.1945 Emergency; plan; drill.

(4) Fire drills must be practiced while children are in care at least once quarterly, and a written record that includes the date and time it takes to evacuate must be maintained.

The licensee has not practiced or documented any fire drills for 2022 or 2023.

R 400.1945 Emergency; plan; drill.

(5) At least 2 tornado drills must be practiced while children are in care between March and November, and a written record of these drills that includes the date must be maintained.

The licensee has not practiced or documented any tornado drills for 2022.

A corrective action plan was requested and approved on 07/06/2023. It is expected that the corrective action plan be implemented within the specified time frames as outlined in the approved plan. A follow-up evaluation may be made to verify compliance. Should the corrections not be implemented in the specified time, it may be necessary to reevaluate the status of your license.
