### Findings of the Inspection

A copy of this renewal inspection report and any associated corrective action plans is available on the Child Care Licensing Bureau [website](#) under [Statewide Search for Licensed Child Care Centers and Homes](#). A description of when renewal inspection reports are completed can be found under [Overview of Licensing Reports](#).

The renewal inspection involved a review of all applicable child care center [administrative rules](#) and [statutes](#). Verification of compliance included direct observations of the physical environment and the program, discussions with staff, and a review of the center's records, including staff records and children's records. Staff records include background checks and training information. Children's records include child information cards, physical examination dates, and immunizations.

During the inspection I observed children in free play and finishing breakfast. The home was clean and had a variety of age-appropriate materials and equipment for the children to access. Kim Monsma interacted with children in a positive and nurturing manner and responded to children's needs. She was providing appropriate care and supervision of children while they engaged in free play. Home and child records were organized and made readily available.

As a result of the renewal inspection on 3/25/2024, licensing consultant Jessica Miranda-Bevier did not find any rule or law violations. A regular license will be issued.
