Approved child use space: On the main level of the home the living room and kitchen are approved as child use space. On the lower basement level the art room and the playroom are approved as child use space. During my inspection Ms. Willis-Davis requested that her back yard be approved as outdoor play space as only the front yard was approved previously. There was some debris in the backyard that I requested to be cleaned up and photos were received on 1/17/2023 of it cleaned up. The back yard is now approved for child use.

Exiting information (including second floor and basement): The front and side doors provide exits on the main level and the walk out door and the stairs leading to the main level provide exits in the basement.

III. DESCRIPTION OF FINDINGS & CONCLUSIONS

This renewal inspection involved a review of all applicable child care home administrative rules and statutes. Verification of compliance included direct observations of the physical environment and the program, discussions with staff, and a review of the home's records, including staff records and children's records. Staff records include background checks, medical clearance information, and training information. Children's records include child information cards and child in care statements/receipts.

During my on-site inspection I observed children's arrival, music and movement activities, lunch service, free play, and positive and nurturing interactions between the provider and child care children. Technical assistance and consultation was provided regarding children's records, handwashing, and attendance.

The facility is in compliance with all applicable rules and statutes.

IV. RECOMMENDATION

I recommend issuance of a regular license to this child care home.
