IV. Description of Findings and Conclusions

This child care home is located in a two-story home with a partially finished basement in a residential neighborhood near the intersection of Burton Street SE and Madison Avenue SE.

On the main level of the home the kitchen, both dining rooms, and the den are approved for child care use. There is a bathroom for the children to access on this level of the home. On the main level of the home there are two remotely located exits; the front door and a side door leading to the driveway. Outdoor play area description:

On the main level of the home the living room and back room are not approved for child care use. There is a fire place in the living room of the home. The upper and basement levels of the home are not approved for child care use. The basement level can be used as a storm shelter.

The outdoor play area is the backyard of the home. It is partially fenced in. There are no water hazards on or near the property.

There is an adequate amount of equipment for the children enrolled. Ms. Tolbert will purchase more equipment as children enroll.

Ms. Tolbert will provide care for children between the ages 1to 17 years.

This child care home will operate Monday through Friday from 6:00am to 11:59 pm.
