Approved child use space:

Ms. Jessica Irish resides in a one-story house with a basement located in a residential area of Adrian. The rooms on the main, and lower levels approved for childcare meet the 35 sq. ft. requirement for each child. The main level kitchen and dining room are approved for child use. The lower level (basement) preschool room and playroom are also approved for childcare use. The lower level (basement) is also used for conducting tornado drills or during actual tornado emergencies.

During my onsite inspection on 10/3/22, I observed the children during small group activities, infant feeding, and freedom of choice activities. All of the rooms were equipped with an adequate amount of age-appropriate play and learning equipment. Ms. Irish provides the children with both structured and freedom of choice learning activities that include both preschool learning activities and arts and craft activities. Staff member interaction with the childcare children was positive and nurturing.

Exiting information (including second floor and basement): The home has adequate fire exits on the main and lower level of the home. The main level utilizes two remote door exits located in the front and rear of the home. The lower level also utilizes two exits including the steps that lead to the main floor and the other being a window with a permanently secured platform. The windows unobstructed opening meets the 5 sq. ft. requirement.

In addition, a variance was granted to licesning rule R400.1910(1) ratio of personnel to children. For each member of the personnel, not more than 4 children under the age of 30 months, with not more than 2 of the 4 children

under the age of 18 months, still applies and is not impacted by this variance.
