III. DESCRIPTION OF FINDINGS & CONCLUSIONS

This renewal inspection involved a review of all applicable child care home administrative rules and statutes. Verification of compliance included direct observations of the physical environment and the program, discussions with staff, and a review of the home's records, including staff records and children's records.

Staff records include background checks, medical clearance information, and training information. Children's records include child information cards and child in care statements/receipts.

The facility is in compliance with all applicable rules and statutes.

During the exit conference I offered technical assistance regarding the approved outdoor play area. The deck attached to the house will soon need to be repaired before excessive paint chipping, nail pops and rotten boards become a safety issue.

IV. RECOMMENDATION

I recommend the license be renewed.
