### III. DESCRIPTION OF FINDINGS & CONCLUSIONS

This renewal inspection involved a review of all applicable child care home administrative rules and statutes. Verification of compliance included direct observations of the physical environment and the program, discussions with staff, and a review of the home's records, including staff records and children's records. Staff records include background checks, medical clearance information, and training information. Children's records include child information cards and child in care statements/receipts.

During the inspection, the child care home was found to be in compliance with all applicable rules and statutes except for the following violations:	
<b>R 400.1906</b>	<b>Records of a licensee; child care staff member; child care assistant.</b>
	(1) A licensee shall maintain a file for each child care staff member and each child care assistant that includes all of the following: (c) A statement signed by a licensed physician or his or her designee that attests to the individual's mental and physical health., and which must be updated as follows: (i) For an applicant or licensee, within 1 year before issuance of the initial license and at the time of subsequent renewals.
During the onsite inspection and review of the records, I observed that Mrs. Dawood did not have the required physical statement completed.	
<b>R 400.1907</b>	<b>Child's records.</b>
	(1) Prior to a child's initial attendance, a licensee shall obtain the following documents: (b) (b) A child in care statement or receipt using a form provided by the department and signed by the parent certifying all of the following: (i) Receipt of a written disciplinary policy. (ii) Condition of the child's health. (iii) Acknowledgement that the parent has been offered either a copy of the licensing rules for a child care home or has been given the website for an electronic copy of these rules. (iv) Agreement as to who will provide food for the child. (v) Acknowledgement that firearms are on the premises, if applicable.

	<p>(vi) If the child care home was built prior to 1978, then the licensee shall inform the parents of each child in care and all personnel of the potential presence of lead-based paint or lead dust hazards, unless the licensee maintains documentation from a lead testing professional that the home is lead safe.</p> <p>(c) Documentation that immunizations and boosters, as recommended by the state department of health and human services, are any of the following:</p> <ul style="list-style-type: none"> <li>(i) Have been completed.</li> <li>(ii) Are in progress.</li> <li>(iii) Are not being administered due to religious, medical, or other reasons based on a waiver signed by the parent.</li> </ul> <p>(d) If a parent objects to emergency medical treatment on religious grounds, the parent shall provide a signed statement that he or she assumes responsibility for all emergency care.</p>
<p>I observed during the onsite inspection and review of the records that six out of the six child care files did not have child in care state</p>	

A corrective action plan was requested and approved on 12/12/2022. It is expected that the corrective action plan be implemented within the specified time frames as outlined in the approved plan. A follow-up evaluation may be made to verify compliance. Should the corrections not be implemented in the specified time, it may be necessary to reevaluate the status of your license.

**IV. RECOMMENDATION**

I recommend issuance of a regular license to this child care home (capacity 1-6).
