III. DESCRIPTION OF FINDINGS & CONCLUSIONS

This renewal inspection involved a review of all applicable child care home administrative rules and statutes. Verification of compliance included direct observations of the physical environment and the program, discussions with staff, and a review of the home's records, including staff records and children's records.

Staff records include background checks, medical clearance information, and training information. Children's records include child information cards and child in care statements/receipts.

During the inspection, the child care home was found to be in compliance with all applicable rules and statutes except for the following violations:

R 400.1907 Child's records.

(1) Prior to a child's initial attendance, a licensee shall obtain the following documents:

(a) A completed child information card on a form provided by the department or a comparable substitute approved by the department.

Ms. Bufkin did not have a child information card for the one child enrolled in care.

R 400.1907 Child's records.

(1) Prior to a child's initial attendance, a licensee shall obtain the following documents:

(b) A child in care statement or receipt using a form provided by the department and signed by the parent certifying all of the following:

(i) Receipt of a written disciplinary policy.

(ii) Condition of the child's health.

(iii) Acknowledgement that the parent has been offered either a copy of the licensing rules for a child care home or has been given the website for an electronic copy of these rules.

(iv) Agreement as to who will provide food for the child.

(v) Acknowledgement that firearms are on the premises, if applicable.

(vi) If the child care home was built prior to 1978, then the licensee shall inform the parents of each child in care and all personnel of the potential presence of lead-based paint or lead dust hazards, unless the licensee maintains documentation from a lead testing professional that the home is lead safe.

Ms. Bufkin did not have a child in care statement for the one child enrolled in care.

R 400.1907 Child's records.

(3) Dated daily attendance records of children in care must be maintained and include the child's first and last name and the time of arrival and departure. Electronic records may be used. If electronic records are used, they must be available to the department at the time of the inspection. If electronic attendance records are not available during an on-site inspection, the child care home is in violation of this rule.

Ms. Bufkin did not maintain a daily attendance record of children's arrival and departure.

R 400.1945 Emergency; plan; drill.

(4) Fire drills must be practiced while children are in care at least once quarterly, and a written record that includes the date and time it takes to evacuate must be maintained.

No fire drills were conducted since the license was opened.

R 400.1945 Emergency; plan; drill.

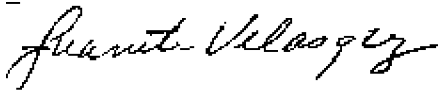

(5) At least 2 tornado drills must be practiced while children are in care between March and November, and a written record of these drills that includes the date must be maintained.

No tornado drills were conducted since the license was opened.

A corrective action plan was requested and approved on 02/02/2023. It is expected that the corrective action plan be implemented within the specified time frames as outlined in the approved plan. A follow-up evaluation may be made to verify compliance. Should the corrections not be implemented in the specified time, it may be necessary to reevaluate the status of your license.
