and a review of the home's records, including staff records and children's records. Staff records include background checks, medical clearance information, and training information. Children's records include child information cards and child in care statements/receipts.

During the inspection, the child care home was found to be in compliance with all applicable rules and statutes except for the following violations:

**R 400.1934                      Heating; ventilation; lighting; radon.**

**(4) A licensee shall test the child care home for the concentration of radon gas before the initial license is issued and every 4 years thereafter at the time of license renewal.**

Ms. Edmondson did not ensure that a radon gas test was completed every 4 years at the time of renewal.

#### **IV. RECOMMENDATION**

Upon receipt of an acceptable corrective action plan, I recommend issuance of a regular license to this child care family home (capacity 1-6).
