## III. DESCRIPTION OF FINDINGS & CONCLUSIONS

This renewal inspection involved a review of all applicable child care home administrative rules and statutes. Verification of compliance included direct observations of the physical environment and the program, discussions with staff,

and a review of the home's records, including staff records and children's records. Staff records include background checks, medical clearance information, and training information. Children's records include child information cards and child in care statements/receipts.

During the inspection, the child care home was found to be in compliance with all applicable rules and statutes except for the following violations:

**R 400.1932 Home maintenance and safety.**

**(1) The structure, premises, and furnishings of a child care home must be in good repair and maintained in a clean, safe, and comfortable condition.**

Ms. Edmondson did not ensure that the structure, premises, and furnishings of the home were in good repair. There was flooring missing around the toilet in the bathroom. The front porch/deck is showing signs of wear including soft wood, cracks in the support beams, and rotting wood.

A corrective action plan was requested and approved on 05/25/2023. It is expected that the corrective action plan be implemented within the specified time frames as outlined in the approved plan. A follow-up evaluation may be made to verify compliance. Should the corrections not be implemented in the specified time, it may be necessary to reevaluate the status of your license.

**IV. RECOMMENDATION**

I recommend issuance of a regular license to this child care family home (capacity 1-6).
