III. DESCRIPTION OF FINDINGS & CONCLUSIONS

This renewal inspection involved a review of all applicable child care home administrative rules and statutes. Verification of compliance included direct observations of the physical environment and the program, discussions with staff, and a review of the home's records, including staff records and children's records. Staff records include background checks, medical clearance information, and training information. Children's records include child information cards and child in care statements/receipts.

During the inspection, I observed children playing outdoors and receiving appropriate care and supervision. The home is well organized to support children's development and care.

IV. RECOMMENDATION

I recommend issuance of a regular license to this child care family home (capacity 1-6)
