## IV. Description of Findings and Conclusions

/

The license was previously amended on 08/09/2022 to increase the ratio to one caregiver to seven children with a capacity of seven children.

A request for modification was received on 10/13/2022 to add the upstairs area of the home. This consists of two bedrooms and a bathroom. The smoke detectors, fire extinguishers and emergency plans are in place. The second floor has been made safe for children's use. One fire exit is the main staircase. The other is a emergency window exit that is labeled.

## V. Recommendation

I recommend the addition of the two upstairs bedrooms and bathrooms to the main floor of the home as approved child care use space.
