III. DESCRIPTION OF FINDINGS & CONCLUSIONS

This renewal inspection involved a review of all applicable child care home administrative rules and statutes. Verification of compliance included direct observations of the physical environment and the program, discussions with staff, and a review of the home's records, including staff records and children's records.

Staff records include background checks, medical clearance information, and training information. Children's records include child information cards and child in care statements/receipts.

During the inspection, the child care home was found to be in compliance with all applicable rules and statutes except for the following violations:

R 400.1903

Licensee responsibilities.

(7) The licensee shall cooperate with the department by ensuring that all individuals requiring a comprehensive background check are entered into the child care background check system and processed for eligibility as required by section 5n of the act, MCL 722.115n, and R 400.1925.

The licensee needs to complete the eligibility process by 'connecting' each person within CCBC.

IV. RECOMMENDATION

Upon receipt of an acceptable corrective action plan, I recommend renewal of this child care license.
