III. DESCRIPTION OF FINDINGS & CONCLUSIONS

Language for Full Inspection

This renewal inspection involved a review of all applicable child care home administrative rules and statutes. Verification of compliance included direct

observations of the physical environment and the program, discussions with staff, and a review of the home's records, including staff records and children's records. Staff records include background checks, medical clearance information, and training information. Children's records include child information cards and child in care statements/receipts.

During the inspection, the child care home was found to be in compliance with all applicable rules and statutes except for the following violations:

R 400.1905 Training.

(1) A licensee shall complete not less than 10 clock hours of training each calendar year related to child development, program planning, and administrative management for a child care business, not including CPR, first aid, and infectious disease, including immunizations, training.

Ms. Straub did not have 10 hours of training for 2020. She only had 6 hours.

A corrective action plan was requested and approved on 01/30/2022. It is expected that the corrective action plan be implemented within the specified time frames as outlined in the approved plan. A follow-up evaluation may be made to verify compliance. Should the corrections not be implemented in the specified time, it may be necessary to reevaluate the status of your license.

IV. RECOMMENDATION

I recommend a renewal license for 12.
