Approved child use space:

Ms. Belinda Tincher resides in a two-story house with a basement located in a residential area of Temperance, Michigan. The rooms on the main, and upper levels approved for childcare meet the 35 sq. ft. requirement for each child. The main level kitchen/dining room, living room, and enclosed porch are approved for child use. The upper-level playroom is also approved for child care use. There is a bathroom located on both levels for children’s use. The lower level (basement) is not approved for child care use and will only be used for conducting tornado drills or during actual tornado emergencies.

During my onsite inspection on 5/3/22, I observed the children during freedom of choice activities. All of the rooms were equipped with an adequate amount of age-appropriate play and learning equipment. Ms. Tincher provides the children with both structured and freedom of choice learning activities that include preschool learning activities and arts and craft activities. Staff member interaction with the childcare children was positive and nurturing.

Exiting information (including second floor and basement): The main level of the home contains two remote door exits located in the front and rear of the home. The upper level also utilizes two remote exits with one being the stairway leading to the main level of the home and the second being a remote window.

Approved variances - No Yes Description:

Key Indicator Inspection: No.

Additional information:

- Pets? No Yes If yes, describe.
Pets in the home include one small-sized dog that is friendly and has regular contact with the child care children.

- Other water hazards? No Yes If yes, describe.
- Fireplace or wood burning stove? No Yes If yes, describe.
- Fireplace/wood burner in use during child care hours? No Yes If yes, describe barriers to protect children from burns.

III. DESCRIPTION OF FINDINGS & CONCLUSIONS

This renewal inspection involved a review of all applicable child care home administrative rules and statutes. Verification of compliance included direct observations of the physical environment and the program, discussions with staff, and a review of the home's records, including staff records and children's records. Staff records include background checks, medical clearance information, and training information. Children's records include child information cards and child in care statements/receipts.

The facility is in compliance with all applicable rules and statutes.

IV. RECOMMENDATION

I recommend no change in the current license status and a regular license be issued to the family child care home.
