III. DESCRIPTION OF FINDINGS & CONCLUSIONS

This renewal inspection involved a review of all applicable child care home administrative rules and statutes. Verification of compliance included direct observations of the physical environment and the program, discussions with staff, and a review of the home's records, including staff records and children's records. Staff records include background checks, medical clearance information, and training information. Children's records include child information cards and child in care statements/receipts.

During the onsite inspection I observed drop off, free choice, toileting, and hand washing. Interactions between Ms. Hadley and the children were positive and developmentally appropriate. Ms. Hadley bases the activities on the ages and developmental needs of the children in care.

Technical assistance was given on the recall list, consent and disclosure forms, wood chips, and child information cards.

IV. RECOMMENDATION

I recommend issuance of a regular license to this child care family home (capacity 1-6).
