III. DESCRIPTION OF FINDINGS & CONCLUSIONS

This renewal inspection involved a review of all applicable child care home administrative rules and statutes. Verification of compliance included direct observations of the physical environment and the program, discussions with staff, and a review of the home's records, including staff records and children's records.

Staff records include background checks, medical clearance information, and training information. Children's records include child information cards and child in care statements/receipts.

Upon arriving to the home Ms. Battee informed me that her only child care child that day had just left for a doctor appointment. I continued with the inspection as Ms. Battee's renewal was overdue.

During the inspection, the child care home was found to be in compliance with all applicable rules and statutes except for the following violations:

R 400.1942 Electrical service; maintenance.

(2) All electrical outlets, including outlets on multiple outlet devices, accessible to children must have safety covers or be tamper resistant outlets.

Ms. Battee did not ensure that all electrical outlets had safety covers.

R 400.1945 Emergency; plan; drill.

(1) An applicant or licensee shall have a written emergency response plan for the care of children that must be posted in a conspicuous location within the child care home.

The plan must address the following types of emergencies:

- (a) Fire evacuation.**
- (b) Tornado watches and warnings.**
- (c) Serious accident or injury.**
- (d) Water emergencies, if applicable.**
- (e) Crisis management including, but not limited to,**

all of the following:

- (i) Intruders.**
- (ii) Active shooters.**
- (iii) Bomb threats.**
- (iv) Other man- or woman-caused events.**

Ms. Battee's emergency procedure was missing a crisis management plan.

A corrective action plan was requested and approved on 10/12/2021. It is expected that the corrective action plan be implemented within the specified time frames as outlined in the approved plan. A follow-up evaluation may be made to verify compliance. Should the corrections not be implemented in the specified time, it may be necessary to reevaluate the status of your license.

IV. RECOMMENDATION

I recommend issuance of a regular license to this child care family home (capacity 1-6).
