Staff records include background checks, medical clearance information, and

training information. Children’s records include child information cards and child in care statements/receipts.

During the inspection, the child care home was found to be in compliance with all applicable rules and statutes except for the following violations:	
R 400.1907	Child's records.

	(3) Dated daily attendance records of children in care must be maintained and include the child's first and last name and the time of arrival and departure. Electronic records may be used. If electronic records are used, they must be available to the department at the time of the inspection. If electronic attendance records are not available during an on-site inspection, the child care home is in violation of this rule.
Daily attendance was not maintained.	
R 400.1944	Smoke detectors; fire extinguishers.
	(3) A home shall have at least 1 functioning multipurpose fire extinguisher, with a rating of 2A-10BC or larger, properly mounted not higher than 5 feet from the floor to the top of the fire extinguisher, on each floor level approved for child use.
