## III. DESCRIPTION OF FINDINGS & CONCLUSIONS

This renewal inspection involved a review of all applicable child care home administrative rules and statutes. Verification of compliance included direct observations of the physical environment and the program, discussions with staff, and a review of the home's records, including staff records and children's records. Staff records include background checks, medical clearance information, and

training information. Children's records include child information cards and child in care statements/receipts.

During the inspection, the child care home was found to be in compliance with all applicable rules and statutes except for the following violations:

**R 400.1905            Training.**

**(4) Within 90 days after receiving a child care license or of being hired at a child care home, a licensee, a child care staff member, and a child care assistant shall complete training on all of the following topics...**

On 2/16/2023, I observed that adult household member and assistant caregiver, Deon Johnson, had not completed Health and Safety part 1 and 2.

**R 400.1907            Child's records.**

**(1) Prior to a child's initial attendance, a licensee shall obtain the following documents:**

**(a) A completed child information card on a form provided by the department or a comparable substitute approved by the department.**

On 2/16/2023, I reviewed the three children's files. One child was missing a child information card. The other two child information cards were filled out incompletely. They were missing parent's work information and physicians phone number.

**R 400.1907            Child's records.**

(1) Prior to a child's initial attendance, a licensee shall obtain the following documents:

(b) A child in care statement or receipt using a form provided by the department and signed by the parent certifying all of the following:

(i) Receipt of a written disciplinary policy.

(ii) Condition of the child's health.

(iii) Acknowledgement that the parent has been offered either a copy of the licensing rules for a child care home or has been given the website for an electronic copy of these rules.

(iv) Agreement as to who will provide food for the child.

(v) Acknowledgement that firearms are on the premises, if applicable.

(vi) If the child care home was built prior to 1978, then the licensee shall inform the parents of each child in care and all personnel of the potential presence of lead-based paint or lead dust hazards, unless the licensee maintains documentation from a lead testing professional that the home is lead safe.

On 2/16/2023, none of the enrolled children had a child in care statement on file.

**R 400.1945                    Emergency; plan; drill.**

(4) Fire drills must be practiced while children are in care at least once quarterly, and a written record that includes the date and time it takes to evacuate must be maintained.

On 2/16/2023, there was not a fire drill log for me to review.

**R 400.1945                    Emergency; plan; drill.**

(5) At least 2 tornado drills must be practiced while children are in care between March and November, and a written record of these drills that includes the date must be maintained.

On 2/16/2023, there was not a tornado drill log for me to review.

A corrective action plan was requested and approved on 02/16/2023. It is expected that the corrective action plan be implemented within the specified time frames as outlined in the approved plan. A follow-up evaluation may be made to verify compliance. Should the corrections not be implemented in the specified time, it may be necessary to reevaluate the status of your license.

**IV. RECOMMENDATION**

I recommend issuance of an original license to this child care family home (capacity 1-6).
