Findings of the Inspection

A copy of this renewal inspection report and any associated corrective action plans is available on the Child Care Licensing Bureau [website](#) under [Statewide Search for Licensed Child Care Centers and Homes](#). A description of when renewal inspection reports are completed can be found under [Overview of Licensing Reports](#).

The renewal inspection involved a review of all applicable child care center [administrative rules](#) and [statutes](#). Verification of compliance included direct observations of the physical environment and the program, discussions with staff, and a review of the center’s records, including staff records and children’s records. Staff records include background checks and training information. Children’s records include child information cards, physical examination dates, and immunizations.

During the onsite inspection, I observed Ms. Howe providing direct supervision of children engaged in free play activities. Children were observed playing with age appropriate toys. I observed the one infant engaged in tummy time activities. I observed Ms. Howe holding the infant during feeding time. I observed hand washing and snack time. I observed the older children preparing for rest time. The children appeared happy and well bonded to the licensee. The home was clean and safe for children’s use. Required records were organized and readily available for review.

As a result of the renewal inspection on 6/20/2024, licensing consultant Mary Smith did not find any rule or law violations. A regular license will be issued.
