This renewal inspection involved a review of all applicable child care home administrative rules and statutes. Verification of compliance included direct

observations of the physical environment and the program, discussions with staff, and a review of the home's records, including staff records and children's records. Staff records include background checks, medical clearance information, and training information. Children's records include child information cards and child in care statements/receipts.

During the on-site inspection, I observed children during naptime and transitioning from nap to engaging with licensee before snack time. Ms. Pignatelli's interactions with children in care was positive, nurturing and age appropriate. The home was observed clean and safe for children's use. Records were organized and readily available for review.

The facility is in compliance with all applicable rules and statutes.

IV. RECOMMENDATION
