II. Purpose of Addendum

Licensee, Mrs. Jones requested to add her basement as approved child care use space.

III. Methodology

05/25/2022 Modification Request Received

06/06/2022 Inspection Completed on-site

07/19/2022 Inspection Completed on-site

IV. Description of Findings and Conclusions

The terms of the original license have been modified on June 25, 2021, and July 19, 2022.

On June 6, 2022, and July 19, 2022, I completed an on-site inspection to observe the finished basement. The large recreation room area is approved for child care use space. There is a bathroom that is tandem to a bedroom in the basement that will be utilized. There is an egress window with a well located in the bedroom, which meets the requirements of an exit window.

Rooms and levels approved for child care use:

The living room, kitchen, and bathroom on the main level of the home and the recreation room and bathroom in the basement are approved for child care use. The approved space for child care exceeds the 35 sq. ft. per child requirement.

Areas not approved:

The family room on the main level of the home, the second level of the home and the bedroom in the basement are not approved for child care use.

Ages of children served: Ms. Jones will accept children ages, 0-12 years of age.

Equipment:

Ms. Jones has an adequate amount of developmentally appropriate indoor/outdoor play equipment for children of all ages.

Proposed days and hours of operation: The hours of operation of the child care will be Monday-Friday 7:00 a.m.-6:00 p.m.

Exiting information (including second floor and basement):

Exiting from the main floor includes a front door and back door located in the kitchen. The basement has an egress window with a well in the bedroom. There are also stairs leading to the main level of the home.

Outdoor play area description:

The outdoor play area is a large, unfenced backyard. Ms. Jones will provide direct supervision at all times. Ms. Jones will also walk the children to a playground in her subdivision, which is located approximately 200 feet from the home. I observed the area to be free of debris. There are no water hazards in the vicinity.

V. Recommendation

I recommend the addition of the basement as approved child care use space.
